

WE NEED YOU

Join our study about communication
technology and Traumatic Brain Injury (TBI)

- **Technology is important** to so much of our life today.
- Technology can require **communication skills**, that are affected after TBI.
- But most of our assessments are **pen and paper measures**.
- **We will make an assessment for** tech-related communication activities (e.g. social media, videoconferencing, online shopping, banking)
- People with TBI, their family and speech-pathologists can help us.

Who is conducting this research? This research is being conducted by Sheree Lu under the supervision of Professor Emma Power and Dr Lucy Bryant at UTS.

Who can join?

- ✓ Currently **18+** years old
- ✓ Everyday English skills
- ✓ Lived experience of **TBI** any time post-onset (Australian) **OR**
- ✓ Close family / friend of someone with **TBI** (Australian) **OR**
- ✓ **Speech pathologists** (Australian or International) working in TBI for 2+ years

What will you do?

- ✓ **Be interviewed** about your experiences
- ✓ **Answer 3 online surveys** about what should be included in the assessment tool
- ✓ Everything will be **online** (face to face is offered if needed)
- ✓ Total of **3 hours** over 2-3 months
- ✓ Participants will be paid up to **\$150** in gift vouchers.
